**APPENDIX "A" AGREEMENT(S) - MASK FIT TECHNICIAN, SENIORITY GROUP 067,
UNITED STEELWORKERS LOCAL 12-369**

Hanford Mission Integration Solutions, LLC (HMIS) and Hanford Atomic Metal Trades Council (HAMTC) agree to the terms and conditions of these documents, which will remain in full force and effect during the term of this agreement.

**HANFORD MISSION INTEGRATION SOLUTIONS, LLC - HAMTC
MASK FIT TECHNICIANS (067)
Appendix A Agreement**

Hanford Mission Integration Solutions, LLC (HMIS) and the Hanford Atomic Metal Trades Council (HAMTC) agree to the following for Mask Fit Technicians:

1. JOB DEFINITION All Articles of the 2013 HMIS/HAMTC Labor Agreement are agreed to, except as modified below.
2. Mask Fit Technicians shall be part of the site benefits program (medical, dental, insurances, pension, 401k savings plan) as other HMIS/HAMTC bargaining unit members.
3. All "Supplemental Agreements" as provided in the 2007 HMIS/HAMTC Labor Agreement are agreed to.

All shifts contained in the Collective Bargaining Agreement are "standard shifts" for Mask Fit Technicians and Mask Fit Technicians may be unilaterally assigned to these shifts.

- Provide quantitative mask fit testing in support of the Hanford Site (read and understand the Mask Fit Desk Instructions (HNF-IP-1210)). Technicians must be trained in fit test procedures, inspection of respirators, and operation of the TSI PortaCount Plus Equipment.
- Be familiar with all brands and styles of respirators used on the Hanford Site and stocked in the mask fit room.
- Perform daily checks on the TSI PortaCount Plus.
- Maintain records of all factory provided calibrations. Ensure calibrations are current prior to use and that Portacounts are not due for calibration on a monthly basis.
- Box used respirators for laundry to pick up; re-stock shelves when laundry delivers clean masks.
- Verify students have appropriate prerequisites in place before providing mask fit.
 - o Verify respiratory physical is current

- o Verify respirator training is current
- o Verify facial hair is acceptable before proceeding with mask fit
- Enter student information into Fit Testing software system prior to providing mask fit.
- Document when students cannot obtain a mask fit in the "Fit Test Failures Log" and notify the student's manager via e-mail.
- Be attentive to students when they are performing fit -tests (e.g. ensure students are following the exercises).
- After providing mask fit, issue a new fit-testing card with a new picture.
- Sanitize respirator adaptors at completion of respirator fits for the day.
- Run end-of-day record keeping checks per procedure.
- Interface with Site issuing mask stations and Site Respiratory Program administrators to ensure mask fit testing meets site requirements.
- Train others as appropriate.
-
- Perform quality checks on the Fit Test and card databases.

4. ~~Attached is Mask Fit Technician job description.~~

5. There will be one Overtime Group and one Supervisory Work Group (SWG), with the understanding the Company may modify the SWG as business needs dictate and will notify the Local.

6. ~~The Seniority Group will be stand alone Seniority Group 067.~~

7. ~~The effective date of this Agreement is November 11, 2013.~~
